

You need high-speed internet indoors and outdoors?

Thanks to this new offer from Ucom you can get both **fixed and mobile high-speed internet** in one package.

Fixed internet is provided via fiber-optic link and ensures symmetric high-speed internet indoors, and when outdoors you can benefit from mobile internet included in the package.

monthly fee	7 000 AMD	8 500 AMD
fixed internet speed	15 Mbps	40 Mbps
mobile internet volume*	3 GB	5 GB
daily internet at up to 512 Kbps speed	200 AMD/daily (first activation for free)	

After consuming the mobile internet high speed traffic, you can enjoy unlimited internet at the speed of up to 512 Kbps, by activating the **Daily Internet 512 Kbps** option. For activation, send 24 to 111 short number, or dial *111*2#, or visit any Ucom shop.

Daily Internet 512 Kbps option can be activated only after consumption of the high-speed internet traffic and will be active during 24 hours.

You can activate the option both from your positive and credit balance.

Fixed and mobile internet offer is designed for individuals and is available only with 12 months commitment.

Modem

By the way, if you still don't have a modem to benefit from mobile internet, you can subscribe to the service for 12 months and get a used Internet Now modem for only 1000 AMD.

SMS

You can also use your mobile internet card to send SMSs to local networks at 15 AMD/SMS rate and to international directions at 20 AMD/SMS rate.

Credite balance

A credit limit of 20 000 AMD is applicable for the **Fixed and mobile internet** offer, which can be used to activate the **Daily Internet 512 Kbps** option and send SMSs. The used credit balance should be paid until the 20th of the following month together with the current monthly fee.

More

Every month you will receive a bundle of high speed traffic, corresponding to your tariff plan. If you do not consume this bundle during the month, the rest will be transferred to the next month. You can have maximum 2 monthly bundles cumulative traffic of your tariff plan on your account.

Fixed and mobile internet offer subscribers cannot activate High-speed Internet bundles or benefit from One More Time, High Upload, Night Internet, Internet Together, High-speed Internet 24 hours and Kaspersky services.

* The mobile internet can be used at the speed of up to 21.6 Mbps depending on the device used.
