Kaspersky Anti-Virus protects your computer from different viruses, without essentially affecting the operation of your computer.
Program main features are as follows:

- Protection from malware
- Detection of new and unknown viruses
- Detection of suspicious websites
- Protection from virus penetration into your computer's operating system

monthly fee*	activation	trial version
1000 AMD	send keyword KAV 135 short number	download

*If you are a subscriber of U!Go 12 500 tariff plan, you can benefit from Kaspersky Anti-Virus service free of charge. For subscribers of lower tariff plans (U!Go 3500, 5500) the monthly fee for the service is 1000 AMD.
You will be able to use Kaspersky Anti-Virus service free of charge when subscribing to U!Flash, U!Fi 11 000 and 15 000 tariff plans. In case you migrate to a lower tariff plan you will have to pay 1000 AMD monthly fee.
You can receive only 1 activation code of Kaspersky Anti-Virus program, which, if lost or forgotten, can be recovered by sending the keyword INFO to 135 short number.
The program should be activated only once and it will continue operating by charging 1000 AMD monthly fee from your account each month. The monthly fee will be charged fully, despite the program activation date.
In order to deactivate the program, just send the keyword STOP to 135 short number or visit My Account page.
The program will continue operating and will be deactivated only on the 1st day of the following month.
After receiving the activation code, you'll need to download and activate Kaspersky Anti-Virusprogram.
