\*Starting 05.08.2025 the monthly fee of Level Up 2000 prepaid tariff plan will become 2200 drams.

\*\*Will go into effect on August 5, 2025.

The tariff plan inclusions will be valid for 30 days. After 30 days, the inclusions will be automatically reactivated and the corresponding fee will be charged from your account.

You can check your inclusions by dialing \*133# and choosing the “Inclusions”.

After 30 days, in case there are no sufficient funds on your account, the inclusions will not be reactivated and you will continue using Ucom services at standard rates according to your tariff plan. To reactivate the inclusions you need to recharge your account with an amount equal to the inclusions’ fee.

In order to use the mentioned applications and websites smoothly and fully, you need to have a positive balance on your account. When using those websites and applications, it is possible to exchange data with other internet resources, for which the charge will be made in accordance with your tariff plan.

We recommend you to use the updated versions of the mentioned applications, otherwise you will be charged in accordance with your tariff plan when using the apps.

You can not use the included minutes to make video calls.

The reactivation of the inclusions will start 10 minutes prior to the end of the validity period. Before the reactivation starts you should have enough funds on your account to reactivate the inclusions. You can use the inclusions provided within the tariff plan/package, once you have received the confirmation SMS message/notification.

The tariff plan inclusions cannot be used when in roaming.

The internet sharing and the use of the shared internet from other devices (Tethering) might be limited.

The Level Up tariff plan is intended for smartphone use only.

\*\*\*In accordance with the principle of the fair usage, Ucom enables all subscribers to equally benefit from the quality mobile network services.

If during the 30 days of validity (in case of postpaid services: 1 month) you have exceeded the 200 GB threshold, the maximum available speed will be set at 512 kbps.

In case of prepaid tariff plan, that speed will be valid until the expiration of the validity period, and in case of postpaid tariff, until the 1st day of the upcoming month.

That speed is enough for you to take full advantage of social media, messengers, and a number of other services.

You will continue using the internet without being charged for the megabytes. In addition to the above-mentioned applications that are made available without consumption of the megabytes, your Level Up package will include [www.ucom.am](http://www.ucom.am) website, ArCa, uPay, IDram and Ucom applications, as well as a number of educational websites, such as [www.kahoot.com](http://www.kahoot.com), [www.etwinning.net](http://www.etwinning.net), [www.emis.am](http://www.emis.am), [www.armedu.am](http://www.armedu.am), [www.e-school.am](http://www.e-school.am).
