

Premium WiFi Plus

If you use the Premium Wi-Fi service via GigaCenter devices, then you can also join the Premium Wi-Fi Plus service provided by the 804 Mesh device. By connecting to GigaCenter at 5 GHz, the device is able to extend the range of Wi-Fi to 60 meters from the connection point. 804 Mesh also provides access to the IPTV service. You can place it next to the STB device for television service, and then connect those two devices with a short cable. Thus, using the Premium Wi-Fi Plus service, enables you to not only increase the range of Wi-Fi, but also enjoy the TV service by avoiding additional cables and wires.
