

Starting from December 1, 2025, the u!Box tariff plans will be discontinued.  
 From that date, subscribers using these tariff plans will be automatically migrated to the currently available internet and/or voice plans, according to their preferences.  
 As part of this change, phone numbers starting with the 06065 code will also be updated by December 1, 2025.

**U!Box** modem enables you to benefit from voice and data services at the same time. With this device you will not only be able to call from a 060 prefix phone number, but also connect up to 32 devices to the internet via WiFi and 1 stationary computer via wired connection.

**U!Box** is a perfect solution for high-speed internet access, making calls and sending SMSes not only for a home, but for work as well, in particular - for small and medium enterprises. Subscribe to one of the 3 suggested **U!Box** tariff plans for 12 months and get the U!Box device only at **1 AMD**.

1000 minutes included in **U!Box 21 000** tariff plan can be used to make international calls as well (international zones 1-6, as well as Ukraine). In this case the consumption will be calculated with a 1 to 10 ratio, which means that in case of 1 minute of international call 10 minutes will be spent from your included minutes to other networks.

With **U!Box** you are welcome to benefit from the following services: [High Upload](#), [One More Time](#), [Kaspersky Anti-Virus](#), [Kaspersky Internet Security](#).

From March 11, the ability to send SMS abroad from the mobile Internet number will be suspended. Continue sending SMS to local networks.
