With the uMix regional service, you will have stable internet connection, IP TV and a landline phone access – all in one package, also possibility to enjoy a number of benefits:

- You will have one account for all your services, which will make the payment process much easier.
- By uniting the services into one package, you will also pay less.
- All services can be managed from [one website](#)
- Also, you can use the [Premium Wi-Fi](#) service and have a better internet availability and wider coverage.

* Minutes to all local landline networks (including Ucom), as well as USA and Canada. The tariff plan is designed for the residents of the regions of Armenia. You can check the availability of a fixed service in your region [here](#).
