In case of the contract termination, or migration from Universal Plus tariff plan to another one, or subscription type change, this offer will not be available for you anymore and you will lose the benefit of having 2 numbers in 1 SIM card.

When abroad, including in Russia, you will use roaming service in accordance with current rates and conditions of [Ucom roaming](#) service.

As part of this offer, calls to the Russian number will be forwarded to the Armenian number included in the SIM card.

Activation of Universal Plus service for business customers may take up to 3 working days.

\*Services with Russian number are provided by Aiva mobile.

The internet sharing and the use of the shared internet from other devices (Tethering) might be limited.

The tariff plan can be used only on smartphones.

If during the 1 month of validity you have exceeded the threshold of the 200 GB, the maximum available speed will be set at 512 kbps. That speed will be valid until the 1st day of the upcoming month.
