

If you already have active unlimited internet option you will continue benefitting from it unless you deactivate it or migrate to other tariff plan for which this option is not applicable.

**Unlimited data access: 1 day for 100 AMD**

Each 24 hours you will be charged with 100 AMD and this option will be automatically reactivated.

In unlimited mobile Internet option, the Internet speed is up to 512 kb/sec both upload and download.

**Unlimited data access: 7 day for 500 AMD**

Each 7 days you will be charged with 500 AMD and this option will be automatically reactivated.

The option's reactivation will start 10 minutes before the expiration of your active unlimited option. Before the reactivation starts you should have enough balance for the new option's reactivation. During that period you will not be able to change or deactivate your current unlimited option. Additional services/bundles are activated after receiving the SMS confirmation message/notification.

If you don't have enough credit on your account, the option will be simply frozen and then reactivated automatically after you recharge your account. Please, note that after the reactivation there has to be at least 50 AMD remaining on your account, otherwise the option will not be reactivated.

In unlimited mobile Internet option, the Internet speed is up to 512 kb/sec both uplink and downlink.

You can stop the automatic reactivation of this option any time by dialing \*129\*30#OK. After you deactivate the option you will not be able to activate it again, as this option is no longer available.
